N/A	Parking Meter Tickets	Growth	Surveys and inspections to be undertaken on the multi-storey blocks across the city by qualified surveyors/inspectors to identify deficiencies in fire stopping and fire doors (Passive Fire protection) and then based on the reports engage with suitably qualified contractors to undertake the remedial works which would then be certified by the surveyor/inspectors The current internally designed and supported PHMS system is antiquated and no longer fit for purpose. The new PHMS system has been designed specifically for Port Health Authorities. It has been running successfully for 7 years and has proven to assist in securing controls at the border. It is looked upon favourably by DEFRA and the Food Standards Agency who are the central competent Authorities providing the approval for Southampton City Council to operate a border inspection post. The system itself will reduce duplication of effort, meaning that data is entered into the system once and then passed to other statutory information systems. It will also allow for pre-paring of accounts by customers which is in line with the Finance Transformation Project and will save on staff time. It will also allow SCC to provide a fit for purpose modern service to port customers and allow SCC to manage the increasing volume of containers coming through the port with existing staff. EC09/01/2120	Wireless "Limited Free to Use" Services Concession	Digital and Business Operations	SCC seek to promote social inclusion and economic development through Southampton becoming a first class Wi-Fi and next generation enabled Wireless Network city, whilst at the same time maximising on the opportunities that this brings in terms additional revenue through the use of SCC owned assets and/or buildings. SCC tendered the above opportunity on 22nd May 2013, with the intention of letting a services concession for the use of council-owned structures and assets to facilitate the installation and operation of infrastructure for a "limited free to use" and publicly accessible wireless network available to, but not limited to: Southampton City Centre, Southampton waterfront and the key transport corridors in and around the City of Southampton. (It was anticipated that a "free to use" time limited service would be provided with charges applying for use after the initial "free to use" period). In return for the above, the council required an annual guaranteed fixed rental plus a share of the profits / revenues of the network from the successful bidder in exchange for granting 5 years exclusively, with extension options of up to a further period of 5 years, of use by the network of council-owned structures and assets. SCC also required that the successful bidder would be required to have commenced installation of the network within 3 months of the contract award.	Anjiva Limited	£ -	No	22/01/2014	21/01/2024	21/01/2023	Yes	Large	No	02487597	Item	sites/corpsg/TFProjWork/proc/Lists/Supplier Management Database	1
EC09/01/2471	Behaviour Change Services	Quality and integration	The service will play a key role in supporting health improvement and behaviour change across Southampton's health and care system. The Service Provider is expected to work closely with Southampton City Council's Public Health Team to provide health improvement leadership and expertise, and advocate public health principles and action to improve health and wellbeing and reduce health inequalities across the city. EC09/01/1393	Design, Build and Advertising on Gateways	Intelligence, Insight and Communication	Build of Innovative Structures at Gateway Points to the City. Income generation to the Council with revenue splits between all parties involved. Southampton City Council (the "Council") in partnership with Southampton City CCG (the "CCG") is seeking to appoint service provider(s) to deliver a range of domestic abuse and sexual violence services. These services have been split into two lots: the first will cover prevention, early intervention and the second, refuge services. These services will form a key and integral part of a wider integrated service model that will deliver significant improvements across Southampton for victims of domestic abuse and sexual violence. This lot is for the prevention and early intervention service which will be available to individuals, including families, identified at low/medium and low risk and living in Southampton. The service(s) will be proactive in the early identification of individuals and families where domestic abuse and sexual violence is present. Services will encompass education and public awareness, identification and access to advice and support, community development and recovery services. The services must be delivered in a manner that reflects the City's diverse population to include, (but not restricted to) older people, BME and transition groups (young people turning 18). 			Please see attached the proposed framework we wish to call off in relation to website advertising. SCC current use the Council Advertising Network (CAN) which was procured through a request for exemption as a pilot project. The pilot has been successful and the service area has submitted a request for contract to get something in place once the pilot expires. Harrow have set up a single supplier framework agreement which is open to us to call off without any charge; details attached. It should be noted there is no expenditure to this procurement, CAN will pay us a revenue share from the income of advertising.														
			Info from Richard Pearson's email: We appointed the Council Advertising Network (CAN) to display advertising on the council's website and intranet for a 12 month pilot period. The pilot period ends on 12 January 2019 so I need to look at my procurement options. I did a fair amount of market research before appointing CAN and they have a fairly unique position in the market whereby the specialist in public sector website advertising - with this comes an in-depth understanding and knowledge of council restrictions and issues when it comes to advertising. There were no serious competitors and indeed CAN service around 50% of councils who have advertising on their websites (they set their own advertising directly). I would be happy to continue using them and they are available to procure through a national framework that has been set up by Harrow - they have listed all local authorities in England on their OEU notice. Any questions let me know. Kind regards Lucy.

SCC - Legacy Contract SCC-K5-673	EPOS System for Museums Hearing Impaired Equipment	Growth	Although procurement is mentioned there are no records and can see that this is legacy spend arranged by stakeholder. SCC engaged with supplier back in 2010 for Tudor House and Art Gallery Gamma software License (EPOS System) renewal (4.8K. Sea City was billed on 2011 Renewal 4.8K. Procurement has obtained a system maintenance agreement; which will be added to SMD. During 2017 there was a hardware upgrade that Capita IT undertook for the PC's and EPOS system. Although there are other EPOS systems on the market investment has already been made. Procurement has also established that Sea City are in discussions with supplier to have your system tweaked to a latest web version for online ticketing at a further cost £1.5K set up plus an annual fee £558 and 5% commission on ticket sales. Procurement has tried to negotiate a discount with supplier but they will not budge as attached. This is now an "Evergreen contract" would suggest approve for the next few years with a need for SCC to undertake a review project of all EPOS systems to see if these can be streamlined. The exemption is also needed that this was never advertised at concert onto Contracts Finder.
