DETAIL (Including consultation carried out)

3. Following a prolonged period of underperformance against the 4-hour A&E operating standard during Q4 11-12 and Q1 12-13, and with encouragement from the CCG, University Hospitals Southampton (UHS) commissioned the national Emergency Care Intensive Support Team (ECIST) to undertake a review of the unscheduled care pathway within trust. The review took place

in mid-June 2012 and the trust is now implementing the recommendations. The outcomes and recommendations of this review were reported to the panel on 31st January 2013.

4. Since the initial report Monitor, the health sector regulator, has announced that it is investigating whether the University Hospital Southampton NHS Foundation Trust has breached conditions of its licence due to persistent breaches of their A&E targets.
5. At the last panel meeting on 18th July 2013 the hospital outlined the latest UHS Emergency Department's performance. It was agreed by the panel to receive an update at future HOSP meeting until the situation at the emergency department is resolved. The latest update is attached at Appendix 1. A further update will be given at the panel meeting by Jane Hayward, UHS Chief Operating Officer.
