

## **Cabinet – 9<sup>th</sup> December 2014**

Additional Recommendations to the following reports:

4 - Future of Day Services in Southampton

5 - Future of the Respite Service for Adults with Learning Disabilities

### **RECOMMENDATIONS**

- (vii) To approve the establishment of a dedicated team of experienced social work practitioners (from existing resources) to complete a thorough review of the needs of all individuals who currently receive a directly provided day and, or, respite service and that the anticipated outcome of these reviews will be:
  - (a) The individual will be deemed not to have eligible social care needs and so will be signposted to access universal or other appropriate services or support;
  - (b) The individual or their representative will choose to receive a Direct Payment and will use this to purchase the care and support needed to meet their eligible social care needs; or
  - (c) The council will commission the care and support needed to meet an individual's eligible social care needs on their behalf.
- (viii) To note that it is anticipated that the reviews will be completed by 28 February 2015.
- (ix) To note that no service will be closed or withdrawn until all reviews have been completed and individuals with eligible social care needs have been supported to move to suitable alternatives.
- (x) To require a progress report at the Cabinet meeting in March 2015.
