BRIEF SUMMARY		
This paper is to provide an update on the latest developments to put the Hampshire and Isle of Wight Integrated Care System (ICS) on a statutory footing.		
RECOMMENDATIONS:		
	(i)	That the panel notes the development of the Hampshire and Isle of Wight Integrated Care System and the development of place-based arrangements for Southampton.
REASONS FOR REPORT RECOMMENDATIONS		
1.	The legislative process to put ICSs on a statutory footing is underway and, if approved by Parliament, we anticipate ICSs to become statutory organisations from April 2022.

DETAIL (Including consultation carried out)		
	As an ICS, we are currently focussing on strengthening partnerships between the NHS, local government and others, giving primary care a more central role in providing joined-up care, and developing strategic commissioning through systems with a focus on population health outcomes. The ICS will also be looking at how provider organisations can step forward in formal collaborative arrangements which allow them to operate at scale, as well as how we can drive system working through the use of digital and data.	
	The ICS already exists as a voluntary collaboration, and is led by Maggie MacIsaac in her role as the Hampshire and Isle of Wight system leader. Lena Samuels has served as chair for many years and has now been appointed as Chair Designate of the statutory ICS.	
	We recognise Hampshire and the Isle of Wight is a complex geography. Southampton has a strong place-based presence and relationships with local	

	partners. We are seeking to transition our governance arrangements as detailed in the paper.
