BRIEF SUMMARY
<p>This report sets out the key priorities as outlined in the draft Interim Integrated Care Strategy.</p> <p><u>Background</u></p> <ul style="list-style-type: none"> • Southampton City Council is part of the Hampshire and Isle of Wight Integrated Care System, which was set up in July 2022 as part of the new Health and Social Care Act 2022. The Integrated Care system sees the formation of two new statutory health and care components; the Integrated Care Board and the Integrated Care Partnership. • Integrated Care Partnerships are formed of upper tier local authorities and member(s) of the newly formed Integrated Care Board. The partnerships can choose to co-opt other members. Their primary purpose is to develop the Integrated Care Strategy for the Integrated Care System and to oversee and ensure the delivery of this strategy. • Whilst the Integrated Care Partnership is still in formation, there is a national requirement that Integrated Care Partnerships write an Interim integrated care strategy by December 2022. Work has been ongoing over the last year, alongside partners in Local Authorities and other partners (e.g. Fire and Rescue, Police, Voluntary and Community Sector, Healthwatch, Local residents etc.) to build a case for change based on local evidence and insight in order to develop the strategic priorities for health and care in the Hampshire and Isle of Wight System. • The purpose of the Integrated Care Strategy is to describe our ambitions and priorities across the Hampshire and Isle of Wight system where we can achieve tangible benefits by working together as a new, wider partnership across the system. It should build on the work of the Local Health and

<p>Wellbeing Boards, but should not duplicate, but set priorities where joint working, beyond place, is most helpful.</p> <ul style="list-style-type: none"> • The strategy which will be submitted in December 2022 will be Interim and there will be further work to do in 2023 as a partnership to develop this strategy and ensure it delivers the ambitions it sets out. • The Integrated Care Partnership is establishing the governance support required to ensure the partnership is successful and the delivery of the strategy. • The attached paper sets out the proposed strategic priorities for the Hampshire and Isle of Wight System. 	
RECOMMENDATIONS:	
	(i) To note and support the direction of travel as outlined in the draft strategy
	(ii) To seek views from the board on how we ensure that the Southampton City Health and Wellbeing Board are part of the continuing development and delivery of the priorities within the draft strategy.
REASONS FOR REPORT RECOMMENDATIONS	
1.	The draft strategy has been developed in partnership with local authorities; the Joint Strategic Needs Assessment and Health and Wellbeing Strategy for Southampton City alongside those of our other local authorities have been used to inform the case for change and priorities. The strategy has been developed in close partnership working with the Directors of Public Health from the local authorities to ensure that it builds on and supports the work ongoing at a place level. To ensure the effective delivery of the strategy, it is recognised that partnership working with our Health and Wellbeing Boards will be vital.
