

Habitats Regulations Assessment (HRA)

Habitats Regulations Assessment (HRA)	
Application reference:	24/00405/FUL
Application address:	348 Winchester Road, Southampton, SO16 6TW
Application description:	Change of use from C2 (residential care home) to 10 person house in multiple occupation (Sui Generis)
HRA completion date:	17 April 2024

HRA completed by:	
Lindsay McCulloch Planning Ecologist Southampton City Council lindsay.mcculloch@southampton.gov.uk	

Summary
<p>The project being assessed is as described above.</p> <p>The site is located close to the Solent and Dorset Coast Special Protection Area (SPA), the Solent and Southampton Water SPA/Ramsar site and the New Forest Special Area of Conservation (SAC)/SPA/Ramsar site.</p> <p>The site is located close to protected sites and as such there is potential for construction stage impacts. It is also recognised that the proposed development, in combination with other developments across south Hampshire, could result in recreational disturbance to the features of interest of the New Forest SPA/Ramsar site and the Solent and Southampton Water SPA/Ramsar site.</p> <p>In addition, wastewater generated by the development could result in the release of nitrogen and phosphate into the Solent leading to adverse impacts on features of the Solent Maritime SAC and the Solent and Southampton Water SPA/Ramsar site.</p> <p>The findings of the initial assessment concluded that the proposal would not result in an additional overnight population based on the proposed occupancy of the building as student accommodation and likely population</p> <p>Following consideration of a number of avoidance and mitigation measures designed to remove any risk of a significant effect on the identified European sites, it has been concluded that the significant effects, which are likely in association with the proposed development, can be adequately mitigated and that there will be no adverse effect on the integrity of protected sites.</p>

Section 1 - details of the plan or project

<p>European sites potentially impacted by plan or project: European Site descriptions are available in Appendix I of the City Centre Action Plan's Habitats Regulations Assessment Baseline Evidence Review Report, which is on the city council's website</p>	<ul style="list-style-type: none"> ▪ Solent and Dorset Coast Special Protection Area (SPA) ▪ Solent and Southampton Water SPA ▪ Solent and Southampton Water Ramsar Site ▪ Solent Maritime Special Area of Conservation (SAC) ▪ River Itchen SAC ▪ New Forest SAC ▪ New Forest SPA ▪ New Forest Ramsar site
<p>Is the project or plan directly connected with or necessary to the management of the site (provide details)?</p>	<p>No – the development is not connected to, nor necessary for, the management of any European site.</p>
<p>Are there any other projects or plans that together with the project or plan being assessed could affect the site (provide details)?</p>	<ul style="list-style-type: none"> ▪ Southampton Core Strategy (amended 2015) (http://www.southampton.gov.uk/policies/Amended-Core-Strategy-inc-CSPR-%20Final-13-03-2015.pdf) ▪ City Centre Action Plan (http://www.southampton.gov.uk/planning/planning-policy/adopted-plans/city-centre-action-plan.aspx) ▪ South Hampshire Strategy (http://www.push.gov.uk/work/housing-and-planning/south_hampshire_strategy.htm) <p>The PUSH Spatial Position Statement plans for 104,350 net additional homes, 509,000 sq. m of office floorspace and 462,000 sq. m of mixed B class floorspace across South Hampshire and the Isle of Wight between 2011 and 2034.</p> <p>Southampton aims to provide a total of 15,610 net additional dwellings across the city between 2016 and 2035 as set out in the Amended Core Strategy.</p> <p>Whilst the dates of the two plans do not align, it is clear that the proposed development of this site is part of a far wider reaching development strategy for the South Hampshire sub-region which will result in a sizeable increase in population and economic activity.</p>

Regulations 62 and 70 of the Conservation of Habitats and Species Regulations 2017 (as amended) (the Habitats Regulations) are clear that the assessment provisions, i.e. Regulations 63 and 64 of the same regulations, apply in relation to granting planning permission on an application under Part 3 of the TCPA 1990. The assessment below constitutes the city council's assessment of the implications of the

development described above on the identified European sites, as required under Regulation 63 of the Habitats Regulations.

Section 2 - Assessment of implications for European sites

Test 1: the likelihood of a significant effect

- **This test is to determine whether or not any possible effect could constitute a significant effect on a European site as set out in Regulation 63(1) (a) of the Habitats Regulations.**

The proposed development is located close to the Solent and Dorset Coast SPA, Solent and Southampton Water SPA and Ramsar site and the Solent Maritime SAC. As well as the River Itchen SAC, New Forest SAC, SPA and Ramsar site.

A full list of the qualifying features for each site is provided at the end of this report. The development could have implications for these sites which could be both temporary, arising from demolition and construction activity, or permanent arising from the on-going impact of the development when built.

As the proposal is for a change of use only and does not require any external works the identifiable impacts are in relation to

- Increased leisure activities and recreational pressure; and,
- Deterioration in water quality caused by nitrates from wastewater

Conclusions regarding the likelihood of a significant effect

This is to summarise whether or not there is a likelihood of a significant effect on a European site as set out in Regulation 63(1)(a) of the Habitats Regulations.

The project being assessed is as described above. The site is located close to the Solent and Dorset Coast Special Protection Area (SPA), the Solent and Southampton Water SPA/Ramsar site and the New Forest Special Area of Conservation (SAC)/SPA/Ramsar site.

The lawful use of the site at this time is as a care home with a condition restricting its maximum occupation to 14. Overall the number of overnight residents of the property are likely to be lower than the permitted use as care home accommodation and therefore the levels of water discharge affecting the water quality of the Solent and Southampton Water Special Protection Area. For the same reasons as above it is likely that fewer leisure trips would be taken to both the new Forest and Coastal Areas included within the Solent and Southampton Water Special Protection Area and New Forest Special Protection Area and Special Area of Conservation.

It is therefore considered that there would be no significant adverse impacts on the Solent and Southampton Water and New Forest Special Protection Areas and the New Forest Special Area of Conservation. An Appropriate Assessment is therefore not required.
