3. Background:

- Loneliness is a significant and growing issue. Acute loneliness has been consistently estimated to affect around 10-13 per cent of older people but it is recognised that loneliness can affect all age groups.
- Its impacts are devastating and costly – with comparable health impacts to smoking and obesity.
- Loneliness is amenable to a number of effective interventions. Taking action to reduce loneliness can reduce the need for health and care services in the future
- The Campaign to End Loneliness and Age UK have developed a framework which sets out a series of practical interventions to address isolation.
- Loneliness has been identified by the Better Care Programme as a major issue for people living in Southampton and work, co-ordinated by the Integrated Commissioning Unit, is underway to produce a plan to tackle loneliness in the City.
